

PRODUCT CATALOG 2020

## MESSAGE FROM THE CEO:

We at CAA USA want to thank you for making the MCK the most popular handgun conversion kit in America. We are very proud that the MCK is 100% made in the USA. You will see throughout the catalog that we will illustrate a little about the evolution of our American Flag.

Our MCK and by definition this catalog were designed to stand on three different "legs": Law Enforcement, Home Defense, and Recreational Shooting. We truly believe the MCK has become the most fun range gun accessory in America.

Our new Generation 2 MCK was designed with the input we received from you, our loyal customers. The MCK Gen 2 has been received with incredible enthusiasm and is a great addition to our already world famous, MCK family.

2020 is going to be a great year with new models coming out such as the Springfield Armory XD, XDM series, the HK VP9 and the CZ P10 series.

Thank you again for making CAA USA what we are today.

With much respect,

LTC (Ret.) Mikey Hartman  
CEO – CAA USA

REBELLIOUS STRIPES 1767

GLOCK | 17/19

# DESCRIPTION

Glock collectively represents the bestselling line of handguns in the United States. Glock has built a reputation known for reliability and performance. The Glock pistol became the official sidearm of the Austrian military and police in 1982. Glock was introduced to the United States in the mid- 1980s and has since been enjoyed by millions of recreational shooters and trusted by law enforcement officers all over the United States and the world.

The MCK Generation 2 is our latest and greatest creation and was released to the public in December 2019. The MCK Gen2 follows in the tradition of being the fastest assembly/disassembly conversion kit on the market and is made 100% in the USA. It will accept the Glock 17,19,19X,22,23,25,31,32,45 in Generations 3,4,5, including the compensated models and includes a port for a spare magazine/drum. The MCK Gen2 provides the same superior platform as our MCK Gen 1 but with 8 upgraded features:

1. New extended stabilizer which allows the user to fire the Gen 2 MCK in the folded and locked position. The new stabilizer is compatible with all of the MCK Gen 1 family.
2. The rear door extends back an additional 15 degrees, making it easier to insert and extract the handgun
3. Accommodates up to 1.1-inch suppressor height sights
4. A new patent pending charging handle which makes more surface contact with the rear of the handgun slide
5. Comes standard with an aluminum top Picatinny rail for improved stability, durability, and accuracy. It also allows you to shoot with compensated Glock models.
6. Brass catcher- Made for those who reload and for keeping the range clean. It's only available for the MCK Gen 2 and sold separately.
7. Magazine Catch – improved spare magazine holder that operates with a magazine catch and release button
8. Suppressor friendly and can accommodate a suppressor up to 1.38 inches in diameter

The patent pending ergonomic grip allows for increased comfort and stability that has not been seen in the market until now. The MCKGEN2 is available with the stabilizer brace (Non-NFA) and Stock (NFA\*).

SPRINGFIELD

# DESCRIPTION

The Springfield Armory name is rich with history and quality going back to 1795, when General George Washington organized the Springfield Armory for production of muskets. This tradition continues with Springfield Armory's series of XD handguns.

In 2002, the XD was introduced and has been selected for use by many law enforcement agencies in the United States and international armed forces. In 2009, the XDM was developed with the competitive shooter in mind. It featured a match-grade barrel, competition sights, upgraded trigger and interchangeable grips.

The MCKSA was developed in a joint venture with Springfield Armory and released to the public in January 2020. We designed the MCK based on Springfield Armory's exact specifications. The MCKSA can accommodate 16 different handguns (XD, XD MOD 2, XDM, and XDM Elite) in multiple calibers (9mm, .40, 10mm, .45). The MCKSA will come with seven different charging handles (differences in the rear serrations) and fits four different barrel sizes (3.8/4/4.5/5) allowing each pistol to be inserted into the MCK without any changes to the handgun. The MCKSA provides the steady platform of a long gun which increases your stability and accuracy.

The MCKSA comes standard with a short stabilizer brace (Non-NFA) or Stock (NFA\*).

GLOCK | 17/19

# DESCRIPTION

Glocks are consistently the most popular handguns in the United States. Glock pistols are well known for their dependability and quality. They are being carried by law enforcement and military officers on a daily basis. The Glock pistol can be found on any range on any given day.

The MCK (Micro Conversion Kit) is made 100% in the USA and was released to the public in December 2018. It is the fastest assembly/ disassembly conversion kit on the market. The MCK will accept the Glock 17,19,19X,22,23,25,31,32,45 in Generations 3,4,5 and provides a port for a spare magazine/drum. The MCK increases your accuracy and stability by providing more points of contact with the shooter's body. The patent pending ergonomic grip allows for increased stability and truly ground-breaking comfort.

The MCK has become one of the most popular range guns in America and has been picked up by numerous law enforcement agencies across the country.

The MCK is available in two versions, Stabilizer brace (Non-NFA) and Stock (NFA\*).

**GLOCK 20/21**

BETSY ROSS 1776

# DESCRIPTION

The Glock 20 (10mm) and 21 (.45 caliber) are the most popular large caliber handguns offered by Glock. In 1990, the Glock 21 was released to help facilitate Glock's rapid expansion in the civilian market. In 1991, the Glock 20 was introduced as Glock's first 10mm handgun. The Glock 20/21 were designed for police and military use, but have been favored by civilians for self-defense, sport-shooting, and hunting.

The MCK for the Glock 20/21 was released in February 2019 and was designed to handle the large caliber Glock pistols. The MCK21 will accommodate the Glock 20 (10MM) and Glock 21 (.45 Caliber) in the same kit. The MCK21 is made 100% in the USA and allows you to place the Glock 20/21 into the kit without any need for tools and is done in seconds. It provides the stable platform of a long gun which increases your accuracy and stability. The higher caliber makes the MCK even more beneficial to the shooter because of the minimized effect of the recoil.

The MCK21 is available in two versions, Stabilizer brace (Non-NFA) and Stock (NFA\*).

**SIG SAUER P320**

# DESCRIPTION

The Sig Sauer P320 is another superior handgun in the Sig Sauer family. In 2014, the P320 was introduced to the United States. A modified version of the P320 was recently adopted by the United States Army, United States Marine Corps, United States Air Force and United States Navy.

The MCKSIG was launched in April 2019 and will accommodate the P320 9mm/.40 caliber full size and compact. The handgun can be placed into the conversion kit quickly and without any need of a foreign object, i.e. screwdriver, Allen key, etc. nor without any need to disassemble your handgun just insert your P320 and you're ready to go. The MCKSIG makes anyone a better shooter and it is a perfect solution for home defense and a fun range gun.

The MCKSIG is available in two versions, Stabilizer brace (Non-NFA) and Stock (NFA\*).

**SMITH & WESSON**

COWPENS 1781

# DESCRIPTION

The Smith and Wesson M&P (Military and Police) handgun was introduced in 2005. The M&P solidified Smith and Wesson in the striker-fire handgun market. It is being used by numerous law enforcement agencies all over the United States. It has found a niche in the civilian and competitive shooting market too. In 2018, Smith and Wesson launched the M&P 2.0. This upgraded version of the original featured a better trigger system, barrel, and textured grip.

The MCK for Smith and Wesson M&P 2.0 was released in March 2019 and was subsequently released again for the M&P Gen 1.0 in May 2019. It is 100% made in the USA and provides a stable platform for increased stability and accuracy. The MCK S&W will make you the envy of all your friends at the range and the center of attention.

The MCK for the Smith and Wesson M&P will accommodate 9mm/.40 caliber in full and compact size. The chassis is identical for both versions other than using a different locking door due to the change in length from the pistol grip to the accessory rail underneath the barrel.

It is available in two versions, Stabilizer brace (Non-NFA) and Stock (NFA\*).

## MCK

### INTEGRAL FRONT FLASHLIGHT

Ambidextrous flashlight provides 500 Lumens of brightness to illuminate your target and your surroundings. Flashlight is removed by depressing the tabs on the side of the platform underneath the shroud and is a proprietary item. The flashlight can be rotated to place the power button in the shooter's preferred position and powered by a standard CR 123 battery (included). The flashlight has four unique functions, low lumen level, high lumen level, strobe and timer.

SKU	MSRP
MCKFL	\$68.00

### POLYMER THUMB RESTS

The pair of thumb rests easily attach to the side Picatinny Rails. The thumb rests prevent your support hand from moving towards the muzzle and provides isometric tension for steadier shooting. Designed for both left- and right-hand shooters and can be assembled on any weapon that has a side Picatinny Rail. The MCKTHR is one of the most popular add-ons to the MCK.

SKU	MSRP
MCKTHR	\$19.50

### POLYMER FRONT & REAR SIGHTS

The MCK Front and Rear Flip-Up Sights securely attach to the top of the Picatinny Rail and uses a simple and quick pull-to-release system. The low-profile front sight features a quick adjust center post for elevation. It includes the standard A2 style, double peep aperture with notch sight and are click adjustable for windage. The MCK logo is embedded in both sights.

SKU	MSRP
MCKFBUS	\$35.00
MCKRBUS	\$35.00

### PUSH BUTTON SLING SWIVEL

The Push Button Sling Swivel is constructed of steel for long lasting durability. It provides a quick release attachment for slings and will accept slings up to 1.6" without binding. The PBSS is proprietary for the MCK and attaches to the MCK underneath the rear housing.

SKU	MSRP
MCKPBSS	\$20.00

### ONE POINT SLING

The One Point Sling is ideal for CQB or for an outdoor range. The sling allows for easy movement when operating in tight spaces. The sling maintains its structure and provides comfortable carry options. It is fully adjustable to fit all body sizes. The side release buckle allows for quick release and frees up your hands. The bungee cord allows you to lengthen the sling when needed.

SKU	MSRP
MCKOPS	\$30.00

# ATTACHMENT

Displayed is the visual instruction and placement of the Advanced Upgrade Kit accessories on the MCK.

# ACCESSORIES

## RED & GREEN LASER

The Red/Green Lasers allow the shooter to acquire a target quickly without using their sights. The Red/ Green Laser utilizes a 123 battery (included) and fits firmly into the designated flashlight compartment of the MCK. Using the laser, you can fire from the hip as well as shooting on the move.

NEW ITEM

SKU	MSRP
MCKLR	\$89.95
MCKLG	\$89.95

## KNIFE

The patent pending MCK Knife is a 3" 7CR17MOV Steel Blade with a four-inch grip which attaches securely into the MCK spare magazine holder. Includes MCK to Knife Grip Adapter, Adapter Removal Tool & Knife Holster. The adapter can be removed when not in use to allow for spare magazine placement.

NEW ITEM

SKU	MSRP
MCKKNIFE	\$119.99

## UNIVERSAL GLOCK HOLSTER

Universal Glock Holster is an IWB holster including a belt clip at a 12-degree angle. Made from the same material as the Glock pistols. Compatible with all generations of Glock (17, 19, 19x, 22, 23, 25, 31, 32, 34, 35 & 45). With no moving parts, positive passive retention technology, and three internal leaf springs, maintaining internal weapon contact. Available in Black, OD Green, FDE, Tungsten & White.

NEW ITEM

SKU	MSRP
MCKGCH	\$44.95
MCKGCHL	\$44.95

## BELT HOLSTER FOR MCK

The Belt Holster is designed exclusively for carrying the Micro Conversion Kit (MCK). Built to fit all belt sizes and locks quickly in place. The holster is angled to allow for a quick and easy draw. Includes: Picatinny Rail attachment, Belt Holster and Allen key. Right-handed only.

NEW ITEM

SKU	MSRP
BHM	\$69.95

## BRASS CATCHER

NEW ITEM

The MCK Brass Catcher is made for those that reload and for keeping the range clean. It connects with a screw on one side and a magnet on the other. It has a Velcro release at the bottom that easily allows the shooter to empty the casings.

SKU	MSRP
MCKBC	\$49.95

## ALUMINUM TOP PICATINNY RAIL

NEW ITEM

The Aluminum Picatinny Rail comes standard with the MCK Gen2. The revamped Picatinny Rail increases stability, durability, and accuracy. The 12-inch military spec rail accepts backup sights and optics. The aluminum rail is easily installed and can be purchased as an aftermarket add-on or with any MCK. The aluminum rail allows a compensated pistol to be used inside the MCK.

SKU	MSRP
MCKTPR	\$69.95

## GEN. 2 EXTENDED STABILIZER

NEW ITEM

Constructed of high-impact polymer and TPE rubber that is lighter and more durable than conventional rubber. MCK Gen 2 can fire in the folded and locked position. Compatible with Gen 1 & Gen 2 MCKs and is intended to be secured to your arm with the Velcro strap. Exclusively licensed to CAA USA by SB Tactical, patent owner, the MCK is the only handgun conversion kit authorized to use this brace. Non NFA item.

SKU	MSRP
MCKSBLGEN2	\$64.95

## SHORT STABILIZER

NEW ITEM

Short Stabilizer Brace is designed with the intention of being secured to your arm with the Velcro strap. It allows for easy mobility in close quarters and is a Non NFA item. The MCKSB can be folded for more compact carry. Exclusively licensed to CAA USA by SB Tactical, patent owner, the MCK is the only handgun conversion kit authorized to use this brace.

SKU	MSRP
MCKSB	\$49.95

# ACCESSORIES

## NFA STOCK STABILIZER

The NFA stock is similar to a rifle stock. It provides a steady platform when firing the MCK. The NFA Stock is designed to be placed against the shoulder allowing for increased stability and accuracy. The NFA stock requires an ATF Tax stamp on the pistol designated to the kit.

SKU	MSRP
MCKSTK	\$49.95

## EXTENDED STABILIZER

The Extended Stabilizer Brace provides a more stable platform which increases your stability and accuracy and is designed with the intention of being secured to your arm with the Velcro strap. It is a Non NFA item. Exclusively licensed to CAA USA by SB Tactical, patent owner, the MCK is the only handgun conversion kit authorized to use this brace. Comes standard with all the Gen 1 MCKs.

SKU	MSRP
MCKSBL	\$49.95

## EXTENDED MAGAZINE

The Glock extended magazine for Glock 9mm and Glock 40 pistols has a capacity of 33-rounds. The Glock extended magazine for Glock .45 Auto pistols has a capacity of 26-rounds. The magazine features an all-black polymer construction and works with Glock pistols (Gen 3 or later) and Glock-compatible carbines and AR Platforms.

SKU	MSRP
EXTENDED-MAGAZINES	\$19.99

## DRUM MAGAZINE

The Drum Magazine is available for Glock handguns (Gen 3,4,5) in four calibers (9mm/50 rounds, .40/50 rounds, 10mm/40 rounds and .45/40 rounds). The drum magazine also works with Glock magazine compatible carbines and AR platforms. Features include heat-treated internal chrome silicon wire spring for maximum reliability and smooth feeding, and special finger taps for quick and easy reloading.

SKU	MSRP
GLOCK-DRUM	\$129.99

## BALLISTIC SLING BAG

Built especially for the Micro Conversion Kit (MCK) and MCK accessories. Ballistic Sling Bag features a HK snap sewn directly to the top of the bag which allows the MCK to be attached and deployed from the bag, quickly and smoothly. The zipper pocket on the rear of the sling bag will accommodate a 10x12 Ballistic Plate. Comes with or without CAA USA logo.
